## Govt KNM Arts and Science College Kanjiramkulam

## The Theatre for Experiential learning

The Theatre is an initiative of the Department of Communicative English to create atmosphere for the faculty and students to watch the film together and to discuss and debate, to turn movie watching into a learning experience in itself. The films are specifically selected from a wide variety of linguistic and cultural differences. This offers an insight into the life of different characters, how their perspectives differ and how they handle different situations It also enhances the level of understanding of a film, the competence to critically watch it and to analyse its content, technical aspects, language etc. This in turn, encourages them to watch a variety of movies and to come up with reviews of these movies. Learning is made wholesome through these activities.
