should be helpful and useful for the development of students future. Studies should not be jst covering up of syllabus but also it should encourage the overall development of soft skills and co curricular extra skills. However, Teacher's of my academic year except few are jst keen on completing up of syllabus only nothing more and hence those days not even helped in shaping up of my future. So I kindly request to those who read this feedback to pls be student oriented and try to understand students need. Govt is provided alot of soft skill training program etc.. make sure to take initiative to make the students attend in them. Thank you 👍
